## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 24-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims depend from “the method of claim 22,” but claim 22 is not a method claim. It appears that these claims were intended to depend from claim 23, and that is how they have been treated for examination purposes.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 15 and 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Kedski.

Kedski discloses a three-sided label, as recited. The statement that the label is “adapted to be secured over a binder clip,” and other such relational language, is merely a statement of intended use, and only requires that it be physically possible for the label disclosed by Kedski to be attached to such a clip, which is the case.

Regarding claim 21, see column 3, lines 55-60.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kedski in view of Phillips.

Kedski discloses the invention substantially as claimed, as set forth above. However the label disclosed by Kedski does not have a transparent protective sleeve mounted thereover. Phillips teaches that it was known in the art to provide a transparent protective cover over a label. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the label disclosed by Kedski with a transparent protective cover, as taught by Phillips, in order to protect the label.

***Allowable Subject Matter***

7. Claims 1-14 and 23 are allowed.

8. Claims 16-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Claims 24-26 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. The following is a statement of reasons for the indication of allowable subject matter:  
The prior art does not disclose or suggest a label having three sides that correspond to the three sides of a binder clip and are mounted thereto. Claims 1-14 and 16-18 are considered to be combination claims. Claims 15 and 19-23 are considered to be subcombination claims.

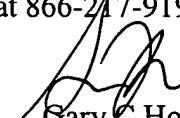

***Conclusion***

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
